

SOME RESULTS OF DINGLEY ACT.

Will Cripple the Foreign Trade of the United States.

PROTESTS RECEIVED FROM FOREIGNERS.

New Law an Effective Commerce Destroyer.

Representatives of Foreign Nations Intimate That There Will Be a Diminished Demand For American Goods—Italy, Turkey, England, Switzerland, Greece and Argentina Have Filed Protests—Irish Petition to McKinley.

Washington, Aug. 2.—In a late number of the Congressional Record, containing speeches on the tariff conference report, is a speech by M. N. Johnson, of North Dakota, in which he makes compilation of the protests received by the state from foreign countries against duties imposed in the Dingley tariff bill, while that measure was pending. Some of these protests have been made public, others have been referred to the committee of congress having the tariff bill in charge, and little or no attention has been paid to them.

Nearly all the communications revert to the commerce between the several countries and the United States. They insist that the new tariff bill retards commerce, and some of them intimate that it will result in decreasing the demand for American goods. They make the reports for the benefit of the committee, and suggest that the committee should take into consideration the injury to be done the United States on account of the imposition of the proposed duties which he says would be very disastrous to the Italian trade in these fruits. A second communication from Baron Fava, the Italian ambassador, is against the proposed duties on candied fruits, which the manufacturers of Lombardy say would destroy their market in the United States.

A third communication from Baron Fava speaks of a letter of the secretary of agriculture, in which he refers to a ministerial decree of Italy relating to imports from the United States. This decree required a consular certificate of origin, issued by American authorities and accompanying shipments of meat. Baron Fava informs the state department that the question has been submitted for examination to the zootechnical and epizootic board. The ambassador adds: "His majesty, however, desires to perform a friendly act toward the United States by frankly forwarding it that it could in no case be induced to modify the provisions contained in the aforesaid decree in accordance with the desire expressed by the department of agriculture if the United States should persist in retaining the duties to which I have the honor to call your attention as being in my preceding written and verbal communication."

TURKEY'S PROTEST. The Turkish government protests against the duty of \$1 per pound on crude opium, and says that the tariff cannot be for the purpose of giving a home industry. He thinks the revenue of the government would suffer, but says that in case it did not, the cost of the drug used for medicinal purposes would be greatly increased to consumers.

DISASTROUS TO SWITZERLAND. J. B. Pioda, minister of Switzerland, says that the new tariff will be disastrous to three principal industries of Switzerland, Swiss cheese, silk, and watches. He says his government appeals to the sentiments of friendship and equity of his sister republic. He submitted what the Swiss government desires as a condition "that the bolting cloth remain on the free list and that there be no increase in the rates on silk goods, silk ribbons, embroidery, Swiss watches and watch movements."

MACKEREL AND HERRING. Sir Julian Pauncefote sent two brief communications, one in December, 1896, informing Mr. Olney that the fishery board of Scotland protested against the high rates on cured herring and mackerel, and the other in January, 1897, representing to the United States government that the high rates which the Dingley bill imposes on salt mackerel and other cured fish would cause grave injury to the fishermen on the west coast of Ireland. This note is dated June 18, 1897.

The protest of the Austrian ambassador, and the German minister against the countervailing duty on bounty export sugar have already been published.

The consular general of Greece protests against the rate imposed upon Zante currants and raisins. Fifty-three Irish members of the British parliament have signed a petition to President McKinley, saying that the duty on cured mackerel and herring, caught on the west coast of Ireland, will work a great hardship to the Irish fishermen and praying the president to secure a modification of the rates in the Dingley bill.

The protest of Argentina against the duty on hides and wool, and of China against a number of duties has already been published. China made a protest on lines similar to those of Japan.

CHEROKEE AFFAIRS.

Assistance For Dawes Commission in Taking Census.

Talequah, I. T., Aug. 1.—The Cherokee National council has just adjourned here after a ten days' extra session. An important step was taken in furnishing the Dawes commission with all Cherokee rolls of citizenship, that it might make final list, looking to the winding up of Cherokee affairs, preparatory to the prospective change. The Cherokee commission to confer with the Dawes commission was hauled over the coals because of its dilatory actions. They were given a strong hint that they must do something or make way for a commission that would.

Two attorneys, Judge J. A. Scales and Charles Pearce, were appointed for the Cherokee nation to assist the Dawes commission in taking a true census of the Cherokee people and to see that the Cherokee interests are protected before that commission. This action of the Cherokee nation is significant as it is another advanced step.

A question was put up for an entire session of the convention on this subject. A number of speeches were made for and against the proposition. A vote was taken, and it was decided by a majority of 30 to join the Debs movement, or the Social Democracy of America, as it is officially known.

DIMINISHED COAL OUTPUT.

Situation in West Virginia Full of Uncertainty.

Wheeling, W. Va., Aug. 1.—There has been a decrease in the amount of coal coming out of the Fairmont region, on the R. & O. coal, compared with the same period last week. Last week the average number of cars received at Baltimore was 200; now the average is probably not over 100. Last week the Cleveland, Lorraine & Wheeling company's claim to be one of the best in the district. The break at Boggs Run has made it very difficult to keep the mine in operation. The mine is now working on a small scale, and it is expected that this week will witness a desperate effort to make the suspension general throughout the district. The operation claim to be a record, protesting against their treatment.

Heavy rewards are offered to the police for arresting United States naval deserters, which has caused wholesale arrests of men of the American fleet.

News of the annexation of several of the Solomon Islands by Great Britain has been received with excitement and again started a report that the United States will not be allowed to annex Hawaii, as Great Britain wants the islands herself. Americans insist on vigilance committees being appointed to look after American interests, in view of the persecution of American blue jackets by the police. They ask that the police system be done away with as a menace to the country.

THE NEED OF MONEY.

Committee Appointed at a Pittsburgh Labor Meeting.

Pittsburgh, Pa., Aug. 1.—Tonight a meeting of the labor leaders was held to take action concerning the miners' strike. The labor unions of Allegheny were well represented by delegates, who took active part in the proceedings. Addresses were made by President Debs, Secretary Warner and Organized Miller of the miners, and by Mrs. N. G. Jones, who became prominent as an agitator during the troubles in Chicago. The meeting was a success, and a committee was appointed to present the matter to the different organizations, with the end in view of securing the necessary sinews of war for the strikers. Resolutions were adopted expressing hearty sympathy with the strikers, and calling on all union workers to come to their relief and roundly denouncing the action of the police in the treatment of the strikers. Many of the delegates at the meeting will attend the meeting tomorrow.

SCOTSDALE'S TRAGEDY.

Well Known Mill Worker Arrested For Shooting Cummings.

Scottsdale, Pa., Aug. 1.—Coroner Owens today held an inquest on the remains of William Cummings, the non-union mill worker, who was killed last night during the quarrel with American strikers. A large number of witnesses were examined, but the only one who gave positive testimony was Constable Longwecker, who testified that he was standing within a few feet of the parties when the shooting took place, and plainly saw the flash and smoke from the revolver in the hands of William C. The jury found Hubbs guilty, and he was at once arrested. Hubbs was a roller in the employ of the Scottsdale Iron & Steel Company before the strike, and is one of the best known young men in the town. While opinions differ as to the effect of Cummings' death, it is generally believed that the trouble could be brought to a close by the arrest of Hubbs, who was a peace-loving man, and the strikers will be more guarded. The town is quiet tonight.

The strikes a few months ago retarded orders, causing a loss of trade and crippling of resources.

TERROR REIGNS AT HAVANA.

SUBURBAN TOWN SACKED BY THE INSURGENTS.

Captured \$40,000 in Gold and Large Quantities of Supplies—Inhabitants Are Leaving Havana.

Tampa, Fla., Aug. 1.—The stories telegraphed from Havana last week about an attack by insurgents on the suburbs of that city is confirmed by passengers who returned yesterday and arrived here tonight. Among the number was Senator Calhoun, who started on his way to wife and daughter, who are now to be reckoned among the refugees who have fled from Havana.

The attack referred to was made on the village of Marianao, about ten miles southwest of the city. Calhoun was an eye witness of the raid. He says that the attack was led by Juan Delgado and Herminio, who were accompanied by a large number of troops outside of the town and carried 300 to the attack. They were well armed with dynamite, and the town and met with but slight resistance. The

engagement was short and desperate. Forty-nine Spaniards were killed and 125 wounded. Two Cubans were killed and 40 wounded.

The inhabitants of the town fled for their lives, leaving the insurgents in complete possession. They sacked the place and secured \$40,000 in gold, besides a large quantity of supplies that they could not carry away.

Old timers tell about the shame story of the affair and say that the wildest terror reigns in Havana and that the wealthy inhabitants are leaving as fast as local laws will permit.
